2 March 1967

MEMORANDUM FOR: Chief, Technical Planning Staff

SUBJECT : Request for Microdensitometer Traces by SPPF for NPIC
"GEMS" Contract

25X1 1. The [] requires approximately 50 edge-traces
25X1 from selected frames of operational photography. The form of these traces
25X1 must be compatible with [] computer programs and the only Micro-
[] in order to determine certain required parameters of operational
photography so that GEMS can be specified which simulate these parameters.

25X1 2. The photography on which the measurements are to be made has been
selected by TID and [] personnel and could be shipped to SPPF
once SPPF has agreed to do the work.

3. It is requested that permission be obtained from SPPF to do this
work. Although the schedule is flexible, it would be desirable that these
edge traces be performed during the week of March 20, 1967.

25X1 4. [] of the [] would like to
be present when the SPPF personnel performs this work. [] holds
TKH, SI clearances.

25X1 5. [] is the NPIC contract monitor and should be con-
tacted when permission is obtained from SPPF or if additional information
is required.
